### Silver Phoenix Entertainment Announces new Classic Horror Comic Book, Bane of the Werewolf

*Gothic Horror Comic Book Screams for Return to Classic Horror*

*Oak Park, Illinois. USA. January 30th, 2009*

--Created, written and illustrated by **Rob E. Brown [REB]** of Marvel Comics, Chaos Comics fame - Bane of the Werewolf is a horror comic book that re-establishes the classic gypsy origins of the werewolf legend in mid-16th century France. The protagonist, Eliphas Moreau, finds himself at the mercy of a malevolent tome. A book, passed down through the ages and only entrusted to gypsy chieftains. Contracting the werewolf curse, he is then bombarded by the many horrors of the occult world - all the while - he struggles to keep his humanity intact as he fights to save the people he loves. Bane of the Werewolf is a comic book about a suffering character that explores the recesses of the human soul and the many challenges the characters come to face.

The comic is akin to the silver-age horror comics produced in the 1970s, with guidance taken from black and white, classic horror films of the 1930s-40s.

The creator-owned property emphasizes solid story with solid art generating a unique 'old world' gothic atmosphere sure to entice horror fans of all ages.
